DETAILED ACTION

Claims 1-26 are currently pending in the application and are addressed herein.

Election/Restrictions

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20, drawn to a method for detecting cancer cells, classified in class 435, subclass 7.2.
 - II. Claim 21, drawn to a method for obtaining cancer therapy drugs, classified in class 435, subclass 6.
 - III. Claim 22, drawn to a method for providing the targeting of cytotoxic drugs, classified in class 435, subclass 7.1.
 - IV. Claim 23-24, drawn to "use" of a biologically active substance that is an immune activator, classified in class 514, subclass 2.
 - V. Claim 25-26, drawn to "use" of a biologically active substance that is an antisense molecule that inhibits expression, classified in class 514, subclass 2.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I-V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together or they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are drawn to different methods which utilize different materials, have different method steps and have different modes of operation, different functions, and different effects.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for each Group is distinct and not required for the other Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
